

Hello,

and Thank You for taking the time in completing these test that should take 2 hours on average in completing. **Responsive Test 2.0** (1hr) and **ReactJS** (1hr) tests will be used to measure skillsets for this position, Sr. Front – End Developer.

Responsive Test 2.0

Objective:

You are given 3 mockups that represent a page that needs to be coded that will be responsive between desktop, tablet and mobile. The closer your code mirrors the designs without elements breaking between sizes the higher chances you will be considered for this position.

As you are coding these mockups please pay attention to the fine details between the views: layout, position of elements, fonts, color, nothing should break between breaking points and resizing of images should never distort.

Responsive Test 2.0 assets included:

- Responsive_Test_v2.0_instructions.pdf
- 3 Mockups/jps included:
 - **Desktop2.0.jpg** (your code should mirror this design in 1025px+ width)
 - **Table2.0.jpg** (your code should mirror this design in 400px – 1024px width)
 - **Mobile2.0.jpg** (your code should mirror this design in 360px width)
- **Responsive_test2.0.sketch** (Sketch file)
 - designs with measurements for best accuracy – Sketch needed to open this file, but not needed for completing the test. Free 30 days trial available <https://www.sketch.com/get/>.
- **Responsive-test-2.0-SETUP-files – START WITH THESE FILES** - We have given you the “index.html” with supporting files and setup the files to get you started.
 - **Images needed** for the completion of the test are included:
 - B&W_bg.jpg
 - PEAK_PNG.png
 - Icons8-search.svg

This test will be graded/ judged on:

- Pixel perfect representation of the mockups
- Design holds up between break points
- Modern code practices
- Code organization / coding comments
- Attention to detail
- Overall time of completion

Submitting your test:

- Provide us the link (Please send us a link to your test.)
- **OR**
- Zip file** (If you choose to send us a zip file please follow the instructions below.)

**** Please “zip” your code when completed, but manually change the extension “.zip” to “.jpg” as you attach it in an email or the file will be blocked due to our firewall. No files with the extension “.ZIP” will reach us. I will confirm I have received your email with your attached file is received.**

If you have any problems please email us with any concerns.
Thank you for your time.

Good luck!
